REMARKS:

FINAL PHOTO SELECTION FORM (PER ROOM)

1. **Photo Information:**

Room Information: _____

(Kitchen, Family, Bedroom, Bath, etc.)

NOTE: The Final Photo Selection Form aids in the flow of heavy traffic photograph e-mails. All photo files described in the following titles below will be used as a guide map in finding, prioritizing and organizing the photographs sent in an electronic e-mail which will be inputted into a customer based folder. The photograph and titles listed below will be considered final. The .JPG photograph files listed on this form should match the electronic e-mail .JPG photograph files exactly. In turn, HIR will compare all photograph titles on this fax form to all e-mail photograph .JPG files received by e-mail. HIR assumes that any photographs taken belong to the original authorized signer/owner below and will be released to HIR. The customer should be made aware that not all materials need to be photographed. Those materials that are unique and infinite in design should be photographed using an ordinary digital camera which produces .JPG files for computer use. This includes but is not limited to, masonry, wallpaper, ceramic tile and linoleum just to name a few patterned materials. Colors and standard materials can be listed on the Final Material and Color Order Form. Please hand write and title each photograph accordingly, if applicable.
